Summary

Character Artist with 8+ years of professional experience creating high-quality characters for real-time games. Experienced throughout the full character production pipeline, from concept interpretation to polished game-ready assets, with strong expertise in organic and hard surface sculpting, modeling, retopology, and optimization. Collaborative and detail-oriented, with a proven ability to deliver visually compelling characters that balance artistic vision with technical performance.

Experience (Relevant last 6 years)

3D Character Artist

2021 – Present / 5 years | 1047 Games USA (Remote)

I worked for four years on the production of 1047Games' Splitgate 2, as part of the in-house character team under the direction of Daniel Kho. Collaborated with the concept art team on the visual definition of main characters, ensuring artistic consistency and technical quality of the project, using Unreal Engine 5 and Perforce.

Projects:

- Empulse "Announced 2026"
<https://playempulse.com/>
- Game Splitgate: Season 2
- Game Splitgate: Arena Warfare
- Game Splitgate 2 - Arena Reloaded
<https://www.splitgate.com/>
- Game Splitgate: Season 1 Beta

3D Character Artist

2020 – 2021 / 1 year | Pulsatrix Studios BR (Remote)

I worked as a Character Artist at Pulsatrix Studios in Brazil on the game Fobia. At Dinfna Hotel, and for A.I.L.A I created main models and bosses, and supported other artists during game production, documentations; the game was awarded at major local and international events. Projects: |

Projects:

- FOBIA - St. Dinfna Hotel

Other Works

2007 – 2020 |

To summarize other relevant experiences, I've been working in 3D Design even before my design degree in 2007. I've done various jobs, from advertising, general art, miniatures for board games, and 3D printing. I've also taught at a digital and online production school for several years, acquiring over 13,000 students worldwide. Today, I'm focused on a career in the gaming industry.

Core Strengths

- Character Production Pipeline (Concept to Game-Ready)
 - Stylized, Organic & Hard Surface Sculpting
 - High & Low Poly Modeling
 - Topology, Retopology & UV Layout
 - Unreal Engine Integration
 - Workflow Optimization
 - Anatomy & Character Proportions
 - Game-Ready Asset Optimization
 - PBR Texturing & Look Development
 - Real-Time Production Pipelines
 - Cross-Functional Collaboration
 - Artistic & Technical Problem Solving
-

Tech/Hard Skills

Modeling: Zbrush, Maya, Blender, Fusion360 | **LookDev:** Substance Painter, Substance Designer, Photoshop | **Engine/Rendering:** Unreal 5, Marmoset, Blender Eevee/Cycles | **OtherTools/Workflow:** Marvelous Designer, MetaHuman pipeline, RizomUV, TopoGun, Texture PBR, Low/High Poly, Baking, Retopo, Perforce, Jira, Miro, Clothes and Accessories, Shader and Light, Blend Shape, Digital Clothing, Look Development, LookDev, Game-Ready Characters, Polygon optimization, Human anatomy, Grooming, Xgen.

Languages

Português: Native | **English:** B2

Education

- Postgraduate and teaching: Centro Universitário Barão de Mauá – Brazil - 2012 – 2013
- Graduate in Industrial design and visual communication - Universidade de Franca – Brazil - 2004 - 2007

Supplementary courses

- Andrew Ariza Workshop | Character Art and Creature design AAA - Spring 2024
 - Anatomy Sculpt | Course with the greatest artist in Brazil, Rafa Souza
 - CGMA |- Character Creation for Games - Cloth Creation and Simulation for Real-Time - Jason Fitch - Character Texturing for Games in Substance - Saurabh Jethani - Hard Surface Modeling for Characters - Ben Erdt
 - Unreal Blueprint | Cubo Class - online Training in Blueprints basic in unreal
 - Learn Squared | - 3D Character Art with Antonio Esparza
-
